

FIG. 20

This technical drawing shows a cross-section of a multi-layered structure. The top layer is a complex assembly with multiple rectangular blocks (13, 12, 9, 8, 10, 14) and a central channel (17). Below this, there is a layer with circular features (5, 6, 11, 16) and a horizontal layer (15). The bottom part of the drawing shows a base layer (19) with three horizontal layers (3, 2, 1) above it. A bracket labeled '4' groups layers 1, 2, and 3. Various other labels (8, 7, 12, 18) point to specific features and interfaces within the structure.
